One of the finest improvements in the city will be the re-building of the Lafayette Hotel. The whole of the back of the house is already being torn down, and the front will shortly be built up. The stores will be just half as large as they are now, and, as the Important has a very large stock on hand, they will not have half room enough for their goods and in order to prevent them from being damaged by dirt and dust, they have decided to sell all their Spring goods at less than cost, and others, such as cottons, tablelinen, etc., at exact cost. We advise all to call at the Important and con and take advantage of the building of the Lafayette Hotel.

The auction sales of the Santa Gertrudes lands fixed for the 19th, 20th | ing well. and 21st of the month have been unavoidably postponed in consequence of the ilness of the survey and the managing agent Mr. Edward McLain. The postponement contemplates the sale of the property on the 26th, 27th and 28th of May. \*apr17:td

If you want a good suit of clothes for a little money, go to the Bazaar, corner of Main and Requena streets, and get one of those \$12 suits, worth

#### Business Change.

An important change is about to be made in the People's Palace. The proprietors have concluded to run it as a clothing establishment only, and will therefore sell all dry goods on hand at cost. They offer 13 yards of calico for \$1; Lonsdale and white rock at 12 cents per yard, and all other dry goods in the same proportion. This is no humbug. All dry goods must be closed out in 30 days. ap28 2w

WE are not prepared to accept the Post as a prophet, but will repeat its assertion that at Santa Monica will grow a city-the city of Southern California. If we were to make a prediction against that of the Post, it would be that Los Angeles is rapidly becoming the great city of Southern California and Santa Monica will became one of its principal shipping points and watering places.

RENEWED energy is manifested in the oil interests in this part of the State. New and, we understand, very flattering discoveries have recently been made in the San Fernando mountains and the wells being sunk in the old mines are giving out encouraging prospects. It is rumored that several San Francisco capitalists contemplate investing money in the vince themselves of the great bargains. Such bargains they can never a get again, and in order to prevent a great rush, we advise all to call early and most improved style. A new company is about being organized for the purpose of putting down a well 2,000 feet deep, if necessary, on the Boushey tract, two miles West of the city. In this locality, oil mining experts say the indications are more favorable than in the oil regions of Canada or Pennsylvania, and they are certain that the expenditure of a few thousand dollars will develop a flow-

#### The Good Time Coming.

The arrival of General Colton and party in our midst is the signal not only for more railroad building, but for some much to be desired improvements at Wilmington in the shipping of goods to and from the city. In the first place, a considerable reduction, probably twenty-five per cent., in the cost of lighterage will be made. This, in the aggregate, will amount to a considerable sum, which will be saved to our people. We shall not be surprised to hear that the visit of General Colton led to a determination on the part of the company to extend the railroad track to or near Old San Pedro and the building of a wharf at that port at which steamers will be able to lay and discharge freight into or receive it from the cars. It is already announced that the Southern Pacific road will be extended one hundred miles from its present terminus at Spadra, in the direction of Arizona, by the close of the present Summer. This, as we have before stated, will turn the trade of Arizona through Los Angeles. General CoLron says the gap in the road between Sad Fernando and Allen's Camp will be closed on or before the 1st of July of next year. All this is good news for Southern California, and indicates a good time coming which is so near at hand that we can fix the date thereof.

### Characteristic Document.

The recently issued address of the Republican State Central Committee is a characteristic, yet singular document-characteristic because it is all about the war, which has been the stock in trade of the leaders of that organization during the campaigns of the last decade, and peculiar in the fact that it asks for a new lease of power and a further maintenance of supremacy on questions and issues which have long since passed into history and are not now matters for national consideration. The rebellion made the Republican party. It came into power on a minority of the popuiar vote and the attempted secession of a part of the States gave it a power and influence which under no other combination of circumstances it could which was thrown the mighty union sentiment of the nation, it received 102 Main st., Opposite Court House, the confines of the nation itself. Who had the act of secession been attempted under the domination of the old that put down the rebellion, and this party. Intelligent citizens of the in fact, chief, point in the war controversy and they are weary of hearing a few office-seekers arrogating to themselves all the heroism and patriotism of the nation. That portion of the address devoted to the condition of affairs in the South, is in especial bad taste. The capitulation of the riots and murders that have occurred in the South since the close of the war as an argument why the Republican party should be retained in power will have the city of San Francisco. no weight, except to indicate the straight to which the committee is reduced for material to make up a lengthy address. The instances of bloodshed and anarchy recapitulated, are in truth so many indictments

against the Republican party - so

Government. For over six years President GRANT and his advisers have labored, or pretended to labor, at the task of bringing about peace and harmony in the States of the South. Let the address of the Committee be read, as evidence of how little they have accomplished in the desired direction. If they have labored in earnest, their utter failure proves them incompetent for the from a task they do not possess ability to perform. If they have not labored in earnest, their perfidy and bad faith merits the disapprobation of the people to the extent of hurling them from place and power. By no parity of reasoning can the present unhappy condition of the South be urged as an argument for longer retaining the Republican party in power. As a whole, we do not admire the address nor can we compliment the good taste and judgment of the committee in composing and sending it forth. It is an appeal to the prejudices, not the good sense and intelligence of the people, and as such it must be accepted more in the light of an insult than as the semblance of an argument.

### Candidates.

There are a good many candidates for the upper tiers of State offices. There is something in this to be proud of. It shows that we have a large number of citizens who have a high appreciation of themselves and no disposition to hide their lights under a oushel. Indeed, it would take two or three bushels to hide some of their lights, and even then scintillations would escape to frighten children and excite apprehensions of a small earthquake. However, there are a number of first-class men candidates for Governor and Lieutenant-Governor, and the reader may pick out their names

in the following list: On the Democratic side: Col. J. P. Hoge, Hon. John S. Hager, Hon. Jas. A. Johnson and Hon. P. A. Roach, of San Francisco; Thomas Findley, of Nevada; Hon. N. Greene Curtis and ex-Mayor James L. English, of Sacramento; Hon. C. T. Ryland, of San Jose; Hon. Wm. Irwin, of Siskiyou; Hon. J. T. Larkin, of El Dorado; Mayor Snyder and Hon. W. C. Wallace, of Sonoma. Hon. J. T. Farley, of Amador, we understand, is not an aspirant. On the Radical side, Hon. J. J. Green and Hon. Drury Malone. The Independents may put up a ticket, and the names of John Bidwell, A. P. Catlin, F. S. Freeman and W. Nor-

ton are mentioned. For the Lieutenant - Governorship those who will seek the support of the Democracy are as follows: Hon. Thos. Wand of San Francisco; Hon. R. C. Haile of Solano; Hon. Thos. Keys, of Stanislaus, and Hon. E. J. Lewis, of Tehama.

### THE COMING CENTENNIAL.

Au Appeal from the State Committee for Subscriptions for California's Quota of Stock in the Great National Exhibition.

Sufficient progress has been made to

satify us that the grand National and

To the People of California:

International Exhibition at Philadelphia next year, in commemoration of the centennial anniversary of the nation's birth, will be a brilliant success if all the States contribute the quota of expenses assigned to them. Present indications give assurance that all the States will respond promptly and liberally, and California, we are sure, will not prove the sole exception. The magnificent buildings intended for the display of the nation's progress and wealth and industrial activity are already in process of erection. They will cover forty acres of ground in Fairmount Park, and will cost about ten millions of dollars. Of this sum, Pennsylvania alone has subscribed four and a half millions of dollars, and other States have contributed with a liberality inspired by a settled purpose to throw all previous international ex-positions in the shade. California has been called upon to subscribe the small sum of ninety-five thousand dollars greenbacks, equivalent to about eighty-two thousand dollars in gold. In return, the subscribers will personally receive Centennial stock, for the redemption of which all the profits of the enterprise are pledged, and which the managers at Philadel-phia confidently predict will be suffi-cient to repay the full amount of subscriptions, dollar for dollar. But in combination of circumstances it could have attained. Being in power at the transpiration of an event against which was thrown the mighty union of her wealth and her attractions; the fabrics of her mills, her foundries and sentiment of the nation, it received her workshops; the products of the support of that sentiment and ex- her soil and of her mines; models panded to dimensions only bounded by | illustrating her social progress and even showing in miniature the striking natural features of the country shall say that the primary object of that have attracted so many strangers the war—the maintenance of the to her shores. Our inquiries satisfy Union—would not have been attained us that all the space allotted to us will be filled. The pride of our people has been arroused and the effort will be made to show that, young as we are, Whig or Democratic partes? It was our State can make a display which the people and not a political party the thousands of Californians who will visit the Exposition can point with pride. The undersigned have been great Union which stands to-day one and inseparable, is cemented with the blood of the people, not by the ties of tribute. There is no time to be lost; the buildings must be completed in United States understand this main, December next, for on the first of January the doors are to be opened for the admission of articles intended for exhibition.

We appeal with confidence to the proverbial liberality and State pride of our people to assist us in raising the needful amount. It is sufficient to say that if we do not raise it California cannot be represented at the Centennial, for we cannot accept the place

### Highwaymen.

There are several classes of high-

waymen, and all of them detested and

dreaded. The boldest and bravest are least dangerous as a rule. They walk square up to your face, tell you who they are and demand your cash, which when handed over settles the matter A second class will decoy the traveler into by-ways, or drug him until he is oblivious to all that concerns him, his money is then filched and he left to die, or recover, as the chances may favor. A third class will secret themselves in ambush by the highway, and as the unsuspecting traveler passes he receives the assassins bullet in his back. These are dastardly cowards, and more to be dreaded than either of the others. Analogous to the highwaymen who rob men of life and money, are several classes who may be termed highwaymen, who rob men of their character or good name. First, there is a class of bold, reckless fellows, with no reputation of their own, who will slander any and everybody as he pleases, and even fight you, to con-vince the world his slander is true. A second class are more cowardly, they will stand on the street corners and in a low tone and a smile of sarcasm make derogatory remarks about you as you pass by. Sometimes they will venture to speak the vilest slander, but they cover their own tracks by using the old dodge, "they say." But the third class are more to be dreaded. They are the robbing correspondents.
They will blast the reputation of a neighbor, or stranger, or any body, by sarcastic flings, or slanderous criti-cisms, or direct falshood, but they are always in ambush, hid behind a fictitious name. Shakespeare says such men are far more to be dreaded than the cunning, dastardly highwayman, that shoets the traveler for his purse. It is astonishing that journals pretend-ing to be respectable will publish their communications. B. L. PEEL.

Judge Clifford Comes to California.

WASHINGTON, May 2.—Judge Ciifford, of the Supreme Court of the United States, leaves to-morrow for California on a pleasure trip. Clifford was one of the United States Commissioners who signed the treaty of Guadalupe Hidalgo, and on the bench he has manifested an especial interest in cleaning away fraudulent California land grants. He also wrote the anti-McGarrahan decisions.

### Interesting Ceremonies.

Boston, May 2.—The Consecration ceremonies and investitures of Archibishop Williams to-day in the new cathedral attracted an immense crowd. The ceremonies were conducted by Cardinal McClosky, the members of the papal embassy and other church dignitaries. Gov. Gaston and members of the Executive Council, both branches of the Legislature, Mayor Cobb and members of the Com-mon Council, the heads of departments and members of the faculties of Harvard, Yale and other colleges, the French, British and other consuls, were present.

MONTPELIER, Vt., May 2.—A fire yesterday destroyed nearly half the business portion of the town. The loss is \$114,000. The losers are making arrangements to rebuild during the Summer.

### Wool Market.

Boston, May 1.—There is no important change in the Wool Market. Business in California wool is fair, amounting to 285,000 pounds, ranging from 16@25 cents for Fall and 30@35 for Spring. The sales of new Spring in most instances barely cover cost.

### Enropean Advices.

London, May 2.—It is reported that Russia has earnestly urged England to send delegates to the International Code Conference at St. Petersburg. If England persists in her refusal, the project will probably be dropped. A special from Berlin says that the last Belgian note is considered satisfactory and terminates the controversy.

Serious Result of a Quarrel in Sacra mento.

SACRAMENTO, April 30th.—About eleven o'clock this morning, while A. St. Clair and William Stanley, employed at the railroad shops, were engaged in work, an altercation arose. Stanley, after being struck several times, seized a piece of scantling and struck St. Clair over the head, felling him to the ground. The injured man was brought over to the city in an insensible condition, his injuries being quite serious. Stanley was lodged in jail, charged with assault to murder.

In the District Court at San Diego, the trial of Gabriel Cuyo, one of the Rogerson murderers, closed on Friday. The jury, after a short deliberation returned a verdict of "murder in the first degree," and fixing the death penalty. The trial of Alipas, the other murderer, is set for next Mon-

GOLD REPORT. SAN FRANCISCO, April 30.

TUESDAY,...... MAY 4, 1875

Gold, 1153/g. Greenbacks—Buying, 87; selling, 88 LOCAL BREVITIES.

The Ancon is due from San Francisco to-day. The Mohongo sailed yesterday evening for San Francisco, with 62 passen-gers and a large freight list.

The District Council, Patrons o Husbandry, meet next Tuesday evening, May 11th, in this city.

We counted thirty new houses in course of erection in sight of Fourth and Fort streets yesterday. The City Clerk advertises for prooosals from banks to become the public lepository and for a sewer on Turner,

New High and Short streets. A full attendence of the members of Shominac Tribe No. 50 I. O. R. M. is earnestly requested to-night, as business of vital importance will come before the Tribe.

Mr. S. C. Foy has received a duplicaie order of the goods sunk in the Ventura, making his stock complete. Buyers will find the old saddle emporium with the best stock in the market. The San Diego Society of Natural

History is now in active service and ores, bones and stones are being collected, to show that San Diego was the capital of the Aztec Nation. We are glad to see that several of

the Ventura sufferers have obtained situations and are now making a comfortable living. This is the proper aid to give to the worthy sufferers. The bark Glencoe, Capt. Willoughbie, of Fort Eureka, and the barken-

tine Constitution, Capt. Bishop, of Seattle, sailed from Wilmington yesterday to load at their respective ports with lumber for Los Angeles. One of our leading merchants, Mr. Eugene Meyer, leaves shortly on a

four months visit to Paris. We regret to lose Mr. Meyer, even temporarily, and wish him a safe journey and speedy return. Our hotel arrivals are unavoidably crowded out by other matter. The United States had 55 arrivals, the St.

Charles 37 and the Lafayette 20. The Lafayette is crowded, though undergoing repairs, and the St. Charles had to turn away a number last night. A good showing for Monday. iver has been resiezed by the United

the distillery. Mr. Otis Perrin, of the Stockton Land Office, paid the HERALD office a visit yesterday. He is on his way home from San Diego, where he has been on a visit to his sister, Mrs. Craigue, who was so badly injured by an accidental fall a few weeks ago.
We are glad to be able to state that

the lady is in a fair way for recovery. Messrs. Jenkins, Van Ess, Means and White have received a Dry-Wash Machine which they intend to try at Temescal Ranch, 15 miles north of Lyon's Station, where the gold yield is \$50.00 per ton. If they succeed they will undoubtedly order a number of these machines. Their experiment will be watched with great interest by

miners in this vicinity. Talk about great rushes; why, there never were such rushes, not even those among which Miss Pharach found that wonderful baby, Moses, as there have been at Sam Prager's since the arrival of those new goods. The ladies rush, the children rush, the men rush, Sam's clerks rush, the goods rush and Sam is doing a rushing business - all on account of those

Gen. Colton, Col. Gray, Chief Engineer Southern Pacific, and Messrs, Montague and Brown favored Los Angeles with their presence Sunday night, and put up at the Backman House. The party was interviewed by a number of our citizens on railroad matters, and we understand the result was mutually satisfactory. General Colton returns to San Francisco to-

splendid new goods.

morrow morning. Mendel Meyer, one of our most enterprising merchants, leaves on Friday morning by Telegraph Stage Line, for San Francisco, to purchase new goods, and will be gone about ten days. Less than one month since Mr. Meyer had a fine new stock and he marked goods down to the lowest notch, securing in that way an im-mense trade. He will buy on this trip the cheapest stock ever brought to Los Angeles, and will give his cus-tomers the benefit of it.

We have the pleasure of drawing the attention of our readers to the great sale of choice; land on Thursday and Friday of this week by the Los Angeles Immigration and Land Co-Operative Association. The property is located in the north-eastern part of the city, and is divided into lots frontinglon First, Georgia, Hewitt and Messer streets. The land lies well, has excellent irrigating advantages and is covered with thrifty orange trees, over five years old. Terms one-third

cash, balance in six and twelve months. The "Brooks Tract," consisting of eighty-one lots, will be sold at auction by Jones & Noyes next Saturday. This property is located in the Western part of the city, a short distance from the terminus of the Spring and Sixth street railroad. The feature of this sale is that the lots will POST OFFICE EMPORUM.

### THE RACES YESTERDAY.

Don Elipha and Vaughn-The Two-Mile Race Won by Don Elipha-Heavy Betting - The Programme

The attendance yesterday at the Agricultural Park races was small, because public opinion had settled it that Don Elipha was to win the race. At 2:30 o'clock in the afternoon the race was called, both horses in trim and looking well, and Don dre w the pole. The first heat was quite spirited, Elipha winning in 5:081, though Vaughn made a much better show than

was expected. The pool selling was quite tame, at about 120 to 20 for Don Elipha, and of hands at these figures. Both horses came up to the second heat looking well, and many side bets were made on the time of the first mile, Vaugin's friends being anxious to retrieve their losses somewhat. The first mile was won by Vaughn in 2:34, amidst great enthusiasm from his backers, though Don won the heat in 5:17.

This ended the famous two-mile race, which was virtually settled by during the race, though very little of it was on the final result, but mostly made up of side bets of various kinds. A foot race and scrub running race

were projected, but received the veto of Mr. Welch, who said they were not square and immediately cleared the track. In doing this he deserves the thanks of the entire community for preventing the prostitution of the track to other than its legitimate pur-

To-day's programme is as follows: Running race; a single dash of a halfmile between Irene Harding and Walking John for \$300-\$200 to first and \$100 to second. A mile and repeat between George A. Johnson, a pacer, to harness, and Vaughn, to wagon, for \$100. Half-mile and repeat, open to all California horses for \$50. The pools sold at the Fashion saloon last night two to one in favor of Walking John, and slightly favorable to Vaughn. The contest between Johnson and Vaughn promises to be an exciting one, and considerable money has already backed the respect-

In our hurried report of the fire at o'clock Sunday morning, we burned out more stores than the occasion required, but our readers must charge our mistake to the Fire Department. which worked with heroic energy and saved the little restaurant and the Main street market. march of the flames.

The losses are estimated as follows: D. W. Fitzpatrick, \$2,000; Wa Lung, \$200; Germain & Matfield, \$300; Rutz-

man, \$700; the barber shop, \$400.

All Sunday the burned district was crowded by victims and spectators. The Chinese cigar-makers, who had their little stock swept away, were on the ground early, evidently in great tribulation. Their impassive counte-nances betokened considerable inter-est, as one of the number, with a longhandled shovel, explored the spot where their peaceful dreams of almond-eyed houris were so rudely disturbed by the fire fiend. After various articles of Chinese furniture and dress had been exhumed, the operator un-covered the object of his search, which he seized in triumph. It proved to be a silver watch and chain, which had been lost in the hurry of the fire, but which had been plucked as a brand

from the burning.

We are informed that the work of clearing away the debris will at once be commenced, and a fine structure soon be erected on the ground. The situation is a valuable one for business purposes and a solid business block could be made profitable to the owners. as well as an ornament to the city.

### The Washington Tract.

No one has done more to develop Los Angeles than Mayor Beaudry. He first conceived the idea of making the hills about Los Angeles available for residence purposes, and at a great outlay has graded the hills and furnished every lot with water. The result of this has been to cultivate a taste for commanding positions for residences, from which the eye could take in magnificent distances. Picturesque residences on adjoining heights now adorn our city and the prevalling taste is to get a building site above the dead level of heat and dust. To enable people to make desirable selections of lots on a slightly elevated position, Mayor Beaudry offers at auction to-day and to-morrow, 99 lots on the west side of Figueroa street, from Third to Sixth street. The sale is to take place on the premises and carriages will convey purchasers and visitors from Mayor Beaudry's office to the grounds.

The schools of El Monte, Bog Dale and Old Mission joined hands last Saturday for the purpose of enjoying the valley and good wages can be made by all needing work. their regular May picnic. A suitable place was chosen, and the air soon resounded with the joyous shouts of the youngsters, while the older ones tipped the cup of joy in their peculiar ways, till all had had enough of pleasure, and the slanting rays of old Sol, in misty twilight began to veil the face of day, when the flocks of pleasure seekers, brimful of sugar plums, sandwiches and other good things, wended their way to their respective homes. investment at from \$75 to \$100. ### DARNING STOCKINGS.

A pretty subject you've given to me, Yet, dear, 'tis only an emblem of thee; For a stocking that's darned or a stocking that's whole You surely will wear till you reach life's goal.

Yet be careful, my pet, that your Sunday shoe Shall never be larger than wee number two: For that medical man whose looks are so sweet, May brag, as he will, about girls with big fest. Those Indiana girls may have pretty faces, Yet he never will dare to speak of their graces: Perhaps he reverses the Chinese plan.

That the bigger the feet the better the man. How busy you are this calm afternoon, The work you are doing I'd tire of soon; That tiresome needle, over, under it goes, Until you have finished the last pair of hose. Do put it away, and don't scold all the time, Because I had rather be writing this rhyme course very little money changed Than filling up holes with a needle and

thread. Indeed, I am sure I can never be led To take up a stocking by any such yarn, And if it suits you, why just go and darn.

The dreamy waltz, the physical exercises, amusements were all of an enjoyable character. The trapeze and horizontal bars shared the attention of the izontal bars shared the attention of the crowd with target shooting and "throwing the goose"—a sort of target practice with a pendant weight in the shape of a goose, with an iron beak. The ball at Turner Hall was an elegant wind-up of the day's enjoyment. The German is pre-eminently a man of peace, a lover of order and those so-cial and physical emjoyments which, while they are of a quiet character, are beneficial to health and comfort. We have no better citizens than the Turners and we wish to see more of their temperate enjoyments.

### The Ventura Sufferers.

Next Sunday there will be a grand foot race of fat men at the Arroyo Seco, for a prize of \$50. The race is open to all contestants weighing 218 pounds or more, and the entrance fee fixed at \$12.50 for each runner. Entries can be left at this office or made on the grounds prior to the race. The admittance is fixed at fifty cents, and it is hoped the Ventura sufferers will realize a considerable amount from the amusing foot race of the fat boys.

### May Party.

EDITOR HERALD: Gallatin school, of which Mr. S. Butterfield is the principal and Miss Melissa Stockton the assistant, held a delightful May party on Saturday last, in the nice, grassy, willowy flat near the residence of Mr. Ragsdale. About 100 scholars were present and about 300 spectators. The school having reached the edge of the grove, marched to the neat stand prepared for the occasion by their teachers, where were had songs, declamations, essays, etc., till dinner. After a regular Los Nietos feast was had all round, Miss Anna Steward was crowned May Queen and Miss Judy McKellar, Fairy Queen, with exercises possessing uncommon interest. This over, "Peeping at Susie,"—a local production—and other games, with swinging ad. lib. on two fine swings under a huge old sycamore, oecupied the time till kindly adieus were spoken and the grove was gradually depopulated. Much credit is due to Mr. Butterfield and his assistant, Miss Stockton, for the pains taken and culture evinced by the school generally, and all united in wishing for many happy returns of the the day.
